

Product information

Product name:	Anti-Phenylurea pab ELISA-Stick with test reagents
Product number:	EP-10
Package size:	5 tests
Principle:	The <i>Phenylure detection reagent set</i> is sensitive and easy to handle test for the detection of <i>phenylurea molecules</i> . The test can be carried out without sample preparation or pre-incubation. Since the test does not require any labour equipment, it s especially suitable for analysis on the spot.
Sensitivity:	Detection limit 1 ng
Crossreaction rate:	Buturon, chloroxuron, chlorotoluron, diuron, isoproturon, linuron, metoxuron, monolinuron, karbutylat, diflubenzuron
Sample size:	max. 1 ml
Assay sample type:	any sample
Detection time:	1.5 h
