

Product information

Antibody name: anti-Hepatitis B core (HBcAg)

Product number: H03H-1

Product description: monoclonal IgG2a

Origin: mouse

Immunogen: recombinant HBcAg (ayw type)

Epitope: a. a. 70 – 80

Purity: cell culture bioreactor harvest (1 mg/ml in DMEM)

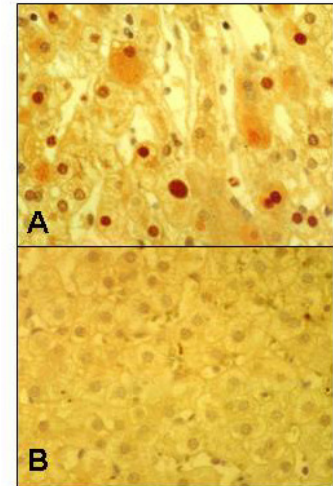

Clone: Z 1.5

Applications: ELISA, Western blot, immunofluorescence, immunohistochemistry

Immunocrossreaction: human, avian. Recognise particularly HBcAg but not denatured HBcAg or HBeAg. Optimal working dilution for Western blot – 1 : 1.000

Storage: short term +4 °C; long term -20°. Repeated freezing and thawing is not recommended.

Quantity: 100 µl

Immunohistochemical analysis.
A – chronic hepatitis B virus liver,
B – normal liver

For research purposes only
