

Product information

Antibody name: anti-Hepatitis B core (HbcAg) IgG2b

Product number: H04H-1

Product description: HBcAg antigen IgG2b; monoclonal

Origin: mouse

Immunogen: recombinant HBcAg (ayw type)

Epitope: a. a. 130 – 142

Purity: cell culture bioreactor harvest (1 mg/ml IgG in DMEM)

Clone: 14D5

Applications: ELISA, Western blot, immunofluorescence, immunohistochemistry

Immunocrossreaction: human, avian. Strongly recognise WHc but not DHBc in ELISA and Western blot. React with synthetic HBc peptides.

Storage: short term +4 °C; long term -20 °C.
Repeated freezing and thawing is not recommended.

Quantity: 100 µl

For research purposes only
