

Product information

Antibody name: anti-Hepatitis B surface (HBsAg) preS2

Product number: H06H-1

Product description: HBsAg antigen IgG1/kappa; monoclonal

Origin: mouse

Immunogen: recombinant HBcAg (ayw type)

Epitope: a. a. 130 -138 of preS2

Purity: cell culture bioreactor harvest (1 mg/ml IgG in DMEM)

Clone: S9

Applications: ELISA, Western blot, immunofluorescence, immunohistochemistry

Immunocrossreaction: human. Strongly recognise WHc but not DHBc in ELISA and Western blot. React with synthetic HBc peptides.

Storage: short term +4 °C; long term -20 °C.
Repeated freezing and thawing is not recommended.

Quantity: 100 µl

For research purposes only
