

Product information

Antibody name: anti-Hepatitis C NS4B

Product number: H10H-1

Product description: HCV NS4B IgG1; monoclonal

Origin: mouse

Immunogen: recombinant protein NS4B (non-structural protein 4B)

Epitope: a. a. 1700 - 1720

Purity: affinity-purified IgG

Applications: ELISA, immunofluorescence, immunohistochemistry

Immunocrossreaction: human

Storage: short term +4 °C; long term -20 °C.
Repeated freezing and thawing is not recommended.

Quantity: 100 µl

For research purposes only
