

Product information

Antibody name: anti-Hepatitis C NS5A

Product number: H11H-1

Product description: monoclonal IgG1

Origin: mouse

Immunogen: recombinant protein NS5A
(part of the NAS5AB recombinant antigen)

Epitope: a. a. 2175 - 2310

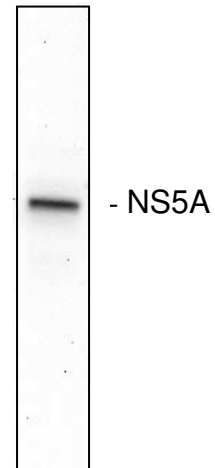

Purity: affinity-purified IgG

Applications: ELISA, Western blot (1: 1.000),
immunoprecipitation

Immunocrossreaction: human

Storage: short term +4 °C; long term -20 °C.
Repeated freezing and thawing is not recommended.

Quantity: 100 µl

Western blot analysis of
the HCV NS5A
expression in Huh7
cells
