

Syn

Product information

Antibody name: anti-protease Slr1821

Product number: P02S-2

Product description: polyclonal antibody;

contains 0.01% NaN₃

Origin: rabbit

Immunogen: synthetic peptide (a. a. 216 – 230) specific for protease Slr1821 from *Synechocystis* sp.

PCC 6803

Immunodetection: Western blot (1:2.000 for ECL)

Immunocrossreaction: Synechocystis sp. PCC 6803

Storage: short term 4°C, long term -20°C. Repeated

freezing and thawing is not recommended.

Preimmune serum (product number P02S-PI): can

be ordered with anti-protease SIr1821

Quantity: 300 µl

Western blot analysis of Synechocystis sp. PCC 6803 membrane proteins with antiprotease Slr1821

Protein description: SIr1821 is a transmembrane metallo-protease of *Synechocystis* sp. PCC 6803. This protease belongs to SP2-type metallopeptidases, the key player of intramembrane proteolysis. The second homologous component in *Synechocystis* is encoded by *sll0528* gene (corresponding antibody products No.: P01S-1; P01S-2). The protein analysis showed that Slr1821 protein contains one PDF domain, which is involved in the protein-protein interactions, while Sll0528 has no PDF domain. These data argues for different functions of Slr1821 and Sll0528 proteases.
