

Product information

Antibody name:	anti-phenylurea
Product number:	P30-2
Quantity:	1 ml
Clonality/purity:	polyclonal antibodies
Host:	rabbit
Immunogen:	phenylurea conjugated to BSA
Applications:	ELISA. Optimal dilutions are dependent on conditions and should be determined by the user. Other applications not tested.
Specificity:	reacts with buturon, chloroxuron, chlorotoluron, diuron, isoproturon, linuron, metoxuron, monolinuron, karbutylat, diflubenzuron
Storage buffer:	Phosphate buffered saline, pH 7.2; 0.05% Sodium Azide (NaN ₃)
Storage:	Store at +4 °C up to one month or in aliquots at -20 °C for longer. Avoid repeated freezing and thawing.
Related products:	The antibodies are available in the form of ELISA-tests and immunosticks for rapid sample preparation. Please, contact us for information on these products.
